## Instructions - Part B

This part consists of tasks to be solved without a calculator or formula sheet.

The maximum number of points you can get for your solution is shown after each task. For example, $(1 / 1 / 0)$ means that the task can give 1 E-point, 1 C-point and 0 A-points.

Aids: Ruler

You will be given part B and part C at the same time. You are not allowed to use a calculator for part B. When you hand in part B you will be given a calculator. We recommend that you review and begin with part C before handing in part B . This can help you use your time well.

Time for the part: 80 minutes in total for part B and part C together.
